

DUST X acts like a magnet to attract lint and dust to dust mops. Quickly saturates treated surfaces but evaporates slowly. Prevents scattering. Use as a dust cloth treatment for small jobs. Leaves surfaces completely free of dust, lint and hair. Restores the sheen to furniture and floors as it cleans, extending the life and luster of wax applications.

Use as a pretreatment on cloths (for dusting laminated office furniture, metal cabinets, and painted surfaces) and mops (for dusting hardwood floors, ceramic tile, marble, linoleum and no-wax floors. Formulated to be used in homes, hotels/motels, industrial plants, hospitals, offices, warehouses, institutions, and the food service industry.

DIRECTIONS

Spray entire mop evenly until moist, but not wet. Repeat this step after each laundering. Apply mop treatment only after use and before storing. Hang mop by handle when not in use. Mop strands should be spread out for maximum contact with floor during sweeping. Push mop lightly. At end of row, release dust and dirt with a few shakes. Mop is then clean and ready to use again. For dusting furniture, spray a little treatment on surface to be cleaned. Wipe with a cloth wrung out in clean water, then polish with a clean dry cloth. For dusting painted or polished surfaces, use lintless cloths as dust cloths.

Caution: Use with adequate ventilation. Intentional misuse by concentrating and inhaling the product can be harmful or fatal.

DUST MOP TREATMENT

- **Versatile**
- **Safe on any floor**
- **Attracts and Holds Dust & Dirt**

DANGER:
CONTAINS GAS UNDER PRESSURE.
MAY EXPLODE IF HEATED.

NET WT. 14 OZ. (397 g)

DANGER: Contains gas under pressure; may explode if heated. May be fatal if swallowed and enters airways. May cause an allergic skin reaction. Keep away from heat, sparks, open flames, and hot surfaces. No smoking. Do not spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn, even after use. Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F. Store in a well-ventilated place. If swallowed: Immediately call a poison center or doctor. Do NOT induce vomiting. Avoid breathing vapors/spray. Wear protective gloves. If on skin: Wash with plenty of soap and water. If skin irritation or rash occurs: Get medical advice/attention. Wash contaminated clothing before reuse. Contaminated work clothing must not be allowed out of the workplace. Dispose of contents and container in accordance with local, state, and national regulations.

IF SWALLOWED: Immediately call POISON CENTER/doctor. Do not induce vomiting.

IF ON SKIN: Wash with plenty of soap and water. If skin irritation or rash occurs: get medical advice. Wash contaminated clothing before reuse.

IF INHALED: Call POISON CENTER/doctor if you feel unwell. If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if easy to do. Continue rinsing. If eye irritation persists: Get medical advice.

See Safety Data Sheet for complete safety information.
