

FAST KLEAN is a concentrated acid cleaner with complex inhibitors proven extremely effective for the removal of lime and scale deposits from air conditioning tanks, heat exchangers, water meters, ready mix concrete trucks, concrete forms and other equipment used in the cement and concrete block industry.

DIRECTIONS

Cleaning Rust & Stains from Concrete - Dilute with 4-8 parts water. Spray or brush on and rinse well.

Water Meters - Using a stoneware or plastic container, soak the meter parts in the concentrate until the scale has dissolved. Remove and rinse thoroughly with water and store in dry area away from where cleaning has taken place.

Cleaning Equipment - Concentrate should be used full strength on heavy deposits of lime, scale or cement. Rinse well with water after leaving concentrate on for a short time. For light deposits, use concentrate diluted with up to 10 parts water.

Cleaning Redi-Mix Concrete Trucks - Dilute 1 part **FAST KLEAN** with 4 parts water. Spray or foam diluted material directly onto surface starting from the bottom and working upward. Allow to stand for 1 to 3 minutes and then rinse thoroughly.

NOTE - DO NOT USE on aluminium, painted enamel surfaces and stainless steel or decorative brass.
