

A powerful pinpoint spray that can be safely applied to both sides of power transmission belts even while in motion. Treatment eliminates belt slippage, increasing equipment efficiency and lengthening belt life. Will not glaze and does not attract dust or dirt.

**Effective against indoor  
and outdoor  
environmental conditions.**

**Useful on All Types of Belts  
“V” Type • Flat • Round •  
Made of Leather  
Rubber • Fabric •  
Synthetic Material**

**DIRECTIONS:**

NOTE: In many instances protective guards must be removed in order to apply belt dressing properly. In such cases please use extreme care to prevent accidents. Be sure to replace guards after treatment.

Features a 360° valve that allows spraying with can held in upright or inverted position. Apply a little at a time to inner surface of belt while machinery is in motion. Spray using a back and forth motion until the surface is completely wet. On most belts, the spray may be applied to the sheaves, pulleys or directly onto the belt itself. Repeat occasionally to maintain full power and to optimize belt life.

WARNING: This product contains a chemical known to the State of California to cause cancer.
