

HULK SYSTEM®

DYNAMIC GREEN MARINE CLEANER - DEGREASER

**100%
Active!**
Hyper-Concentrate

HULK SYSTEM® SOLO PROGRAM DESCRIPTION

The HULK SYSTEM® Program was formulated as replacement technology for consumers who purchase large quantities of detergents in bulk tanks, totes, or multiple drums. It utilizes the latest chemical technology to simplify the transportation, storage, and use of detergents while drastically reducing all associated costs.

DYNAMIC GREEN® CLEANER - DEGREASER formulation utilizes one single 100% active formulation base to deliver its cost-slashing benefits. Special new technology allows us to manufacture this formulation without sacrificing product effectiveness.

NOTICE

DYNAMIC GREEN® CLEANER - DEGREASER Formulation Base is a 100% active, raw material hyper-concentrate. It is designed for use exclusively with the Hulk System Solo Detergent Dispensing Unit. Other use is prohibited unless authorized by the manufacturer. Customized dilution programs are available; consult your Wechem technical sales representative for details.

**Meets EPA NPDES Vessel
General Permit requirements
effective 12/19/13 - 2018.**

VESSEL GENERAL PERMIT (VGP) ABOVE WATER LINE/DECK CLEANING

Vessel owner/operators must minimize the introduction of on-deck debris, garbage, residue, and spill into deck washdown and runoff discharges. Before deck washdowns occur, you must broom clean (or equivalent) exposed decks or use comparable management measures and remove all existing debris. The presence of floating solids, visible foam, halogenated phenol compounds, and dispersants, or surfactants in deck washdowns must be minimized.

If deck washdowns or above water line hull cleaning will result in a discharge, they must be conducted with “minimally-toxic” and “phosphate free” cleaners and detergents as defined in Appendix A of this VGP (effective 12/19/13-2018).

**KEEP OUT OF REACH OF CHILDREN.
FOR INDUSTRIAL USE ONLY.
READ SAFETY DATA SHEET BEFORE USE.
UNIT OF MEASURE: U.S. GALLONS**

FIRST AID

Keep away from excessive heat and all ignition sources. Prolonged contact with skin can cause irritation, drying and cracking. Repeated contact with eyes can cause irritation and reddening. Inhalation may cause irritation of nose, throat and the central nervous system. Ingestion may cause irritation of digestive tract and central nervous system effects. Do not take internally.

SKIN: Wash with soap and water. If irritated, seek medical attention.

EYES: Flush with water for 15 minutes. Seek medical attention.

INGESTION: DO NOT INDUCE VOMITING. Drink two large glasses of water. Get immediate medical attention.

INHALATION: Remove to fresh air. Resuscitate if necessary. Get medical attention.

PROPER PPE: B - Safety Glasses, Chemical/liquid Resistant Gloves

WARNING

Use personal protective equipment as required.

Causes mild skin irritation.

Causes eye irritation.

May be harmful if swallowed and enters airways.
