

- **CONDITIONS**
- **ENHANCES COLOR**
- **CUTS GREASE**

Using **FIBERLINE** before cleaning with water extraction, dry foam or rotary shampoo systems produces faster results, assures removal of greasy soil and gives greater uniformity. With **FIBERLINE**, risk of shrinkage is reduced by decreasing the quantity of water required to clean the carpet. Safe for use on Fifty Generation Carpets.

## DIRECTIONS

Mix **FIBERLINE** with warm water according to the following soil conditions:

- Light Soil** - 2 oz. **FIBERLINE** per gallon of water
- Medium Soil** - 4 oz **FIBERLINE** per gallon of water
- Heavy Soil** - 8 oz **FIBERLINE** per gallon of water

Using a pump-up sprayer, mist traffic lanes and badly soiled spots sufficiently to dampen all soil with **FIBERLINE** solution. Allow 5 minutes for FIBERLINE to penetrate soils and then clean.

## TO SPOT CLEAN

Mix solution and spray area with trigger sprayer. Blot up with clean cotton cloth. Do Not Rub. Flush with water. Blot dry with white towel.

## BONNET CLEANING

1. Mix 8-16 ounces of **FIBERLINE** per gallon warm water. Apply solution with a pump-up sprayer. Spray area to be cleaned. Do not over saturate. Allow 5 minutes of dwell time.
2. Spray bonnet with a moderate amount of solution. Place under floor machine and pass over carpet. Cleaning solution will dry in 10-15 minutes. Repeat if necessary.

**CAUTION:** *Check color fastness of carpet in an inconspicuous place before cleaning entire area.*
