

HULK SYSTEM®-250LF

**HEAVY DUTY
INDUSTRIAL CLEANER**

**Readily Biodegradable
Non-Flammable**

DESCRIPTION:

HULK SYSTEM® 250LF is a highly effective moderately alkaline detergent system that contains no harsh alkaline builders.

HULK SYSTEM® 250LF may be used to remove unwanted soils and contaminants from nearly any water-safe surface, including those that are painted. Special ingredients make this formulation especially effective at removing unwanted petroleum hydrocarbon soils from virtually any surface.

DIRECTIONS:

Hulk System® 250LF is specifically designed for multi-use cleaning of industrial surfaces. It is suited for use with steam cleaners, pressure washers, floor cleaning equipment and manual cleaning operations. This product may be diluted further with water prior to use. Degree of product strength necessary to clean is directly related to the type of soil being removed and the degree of buildup. Adjust dilution level until achieving optimal cleaning results.

OIL/WATER SEPARATOR SAFE:

Hulk System® 250LF contains special surface-active agents that only temporarily suspend hydrocarbon-based soils allowing for quick phase separation. Hulk System® 250LF is ideally suited for consumers who are attempting to capture hydrocarbons from their cleaning water discharge with oil/water separators. If special concern is warranted for a painted surface, Wechem recommends pre-testing on a small area prior to wide scale use.

DANGER

KEEP AWAY FROM CHILDREN.

**FOR INDUSTRIAL AND INSTITUTIONAL USE ONLY.
SEE RIGHT PANEL FOR ADDITIONAL CAUTIONS.**

NET CONTENTS: U.S. GALLONS

3/15

DANGER: Corrosive Liquid

May be harmful if swallowed. Causes severe skin burns and eye damage. May cause respiratory irritation.

Do not breathe dust/fume/gas/mist/vapors/spray. Wear protective gloves/protective clothing/eye protection/face protection.

If Swallowed: Immediately call a POISON CENTER or doctor/physician. Rinse mouth. Do NOT induce vomiting.
