

DESCRIPTION

MARVEL represents the newest technology in vehicle detergent formula. It brings new efficiency, new economy, and new cleaning brilliance to the maintenance of cars, buses, semis, panel trucks, aircraft equipment, and other heavy duty road vehicles.

MARVEL is an advanced one-step detergent that does a superior cleaning job without the hassle, expense, or danger of the two-step cleaning method. Special ingredients hold soil in suspension so it won't settle out on the surface before the job is finished and leave a film. It cuts through exterior grime and road film without dulling the finish and that's only the beginning of its many cost-efficient advantages.

Check out these exclusive formula features!

- Special detergent blend saves labor - floats off vehicle road film and soils without brushing.
- Safe for exposed decals, Lexan, Plexiglass, enameled and lacquered surfaces, etc.
- Exclusive water conditioning builder intensifies cleaning and rinsing - even in the hardest water.
- Corrosion inhibitor - Protects metal surfaces from corrosion.

DIRECTIONS

Use **MARVEL** through all types of mechanical cleaning devices. Superior results will be attained when used through pressure washers, tunnel washers and steam cleaners. The following is a guide for dilution ratios.

DILUTION CHART

SOIL	MARVEL	WATER
HEAVY	1 PART	20 PARTS
MEDIUM	1 PART	30 PARTS
LIGHT	1 PART	40 PARTS
