

DESCRIPTION:

MOP OFF floor finish remover is the newest technology in stripping solutions. It will quickly penetrate and break-up a wide variety of floor waxes, seal, finishes, and coatings. It may be used with or without a floor scrubbing machine.

MOP OFF is non-fuming. It contains no ammonia and is very pleasant to work with.

MOP OFF does not need to be neutralized. Since this formulation contains no ammonia or caustic alkali, your floors will not require excessive rinsing and neutralizing before refinishing. Only rinse to remove trace residues of soil or dirt. If any **MOP OFF** residue remains on the floor, it will quickly and completely evaporate. As soon as the floor is dry you may proceed with refinishing the floor.

DIRECTIONS:

STRIPPING WITH A FLOOR SCRUBBING MACHINE:

1. Mix **MOP OFF** with hot water. Apply solution to floor until it is very wet. Allow product to work for 4 to 5 minutes. Do NOT allow product to dry on floor.

MIXING PROCEDURES:

Heavy Accumulation: Mix 1 part **MOP OFF** in 10 parts water.

Moderate Accumulation: Mix 1 part **MOP OFF** in 12 parts water.

Light Accumulation: Mix 1 part **MOP OFF** in 16 parts water.

2. Agitate with scrubbing machine using an aggressive stripping pad.
3. Pick up solution with mop or wet vacuum.
4. Rinse floor with clear water and allow to dry before waxing.

STRIPPING WITH A MOP:

1. Mix **MOP OFF** with hot water. Apply solution to floor until it is very wet. Allow product to work for 4 to 5 minutes. Do NOT allow product to dry on floor.

MIXING PROCEDURES:

Heavy Accumulation: Mix 1 part **MOP OFF** in 1 parts water.

Moderate Accumulation: Mix 1 part **MOP OFF** in 3 parts water.

Light Accumulation: Mix 1 part **MOP OFF** in 15 parts water.

2. Aggressively re-mop floor. This provides the agitation necessary to break up the softened finish. Let stand an additional minute or two. Repeat if necessary.
3. Pick up solution with mop or wet vacuum.
4. Rinse floor with clear water and allow to dry before waxing.

WARNING

Causes skin irritation. Causes serious eye irritation. May cause respiratory irritation. Harmful if swallowed.

Avoid breathing dust/fume/gas/mist/vapors/spray. Use only outdoors or in well-ventilated area. Wear protective gloves/protective clothing/eye protection/face protection. Wash hands thoroughly after handling. Read label before use.

If on skin: Wash with plenty of water. Take off immediately all contaminated clothing and wash it before reuse. Call a poison center/doctor if you feel unwell. If inhaled: Remove person to fresh air and keep comfortable for breathing. Call a poison center/doctor. If swallowed: Immediately call a poison center/doctor. Rinse mouth. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Store locked up. Store in a well-ventilated place. Keep container tightly closed.

Dispose of content and container in accordance with all local, regional, national and international regulations.

This product does not contain the highly caustic alkali associated with most strippers. However; because of its unusual penetrating and liquefying ability, it must be used only as directed. DO NOT USE UNDILUTED. Wet floor may become extremely slippery. Be sure to keep pedestrian traffic away from floor until thoroughly dry.

READ SAFETY DATA SHEET BEFORE USE.
