

USE ON:

Vinyl, Plastic, Metals, Rubber, Veneer,
Chrome, Leather, Acrylics, Tires, Stainless,
Wood, Painted Surfaces, Brass, Ceramic,
Marble and Aluminum

DESCRIPTION

SUPREME is used to polish, protect, restore, preserve, shine and waterproof most hard surfaces to help retain or restore the original finish. It is especially recommended for surfaces found in cars, trucks, furniture, fixtures in restrooms, kitchens, public buildings and anywhere surfaces need protecting or restoring. Ideal for protecting surfaces from sunlight.

DIRECTIONS

For both interior and exterior surfaces. Use only as directed. Do not apply to fabrics, floors or windows.

For best results preclean surfaces so that they are free of excess dirt. This allows **SUPREME** to reach and penetrate the surface and provide the best results and performance without trapping dirt. Apply by spraying or wiping. Spread liberally and evenly over surface and allow to penetrate and be absorbed; then wipe and buff off excess with a clean soft cloth.

For very dry and porous surfaces apply a thick coat and allow to sit and act for several hours or overnight. Then wipe or rub off excess to desired luster. Apply frequently as required to maintain the best appearance and protection.
