

DESCRIPTION

TOUCHLESS represents the newest technology in vehicle detergent formulas. It brings new efficiency, new economy and new cleaning brilliance to the maintenance of cars, buses, semis, panel trucks, aircraft equipment, and other heavy-duty road vehicles.

TOUCHLESS is an advanced one-step detergent that does a superior cleaning job without the hassle, expense or danger of the two-step cleaning methods. Special ingredients hold soil in suspension so it won't settle out on the surface leaving a film before the job is finished. **TOUCHLESS** cuts through exterior grime and road film without dulling the finish and that's only the beginning of its many cost-efficient advantages.

EXCLUSIVE FORMULA FEATURES:

- Special detergent blend saves labor, floats off vehicle road film and soils without brushing.
- Safe for exposed decals, Lexan, Plexiglass, enameled and lacquered surfaces, etc.
- Exclusive water conditioning builder intensifies cleaning and rinsing - even in the hardest water.
- Corrosion inhibitor - protects metal surfaces from corrosion.

DIRECTIONS

Use **TOUCHLESS** through all types of manual and mechanical cleaning devices. Superior results will be attained when used through pressure washers, tunnel washers, steam cleaners, and bucket washing.

General Dilution Table

SOIL	TOUCHLESS	WATER
Light Soil	1 Part	60 Parts
Medium Soil	1 Part	45 Parts
Heavy Soil	1 Part	30 Parts
