

Ultra Gel Lube is especially formulated to dispense as an oil-like lubricant designed to penetrate and lubricate. Ultra Gel Lube then sets up as a viscous, high impact grease adding protection and heavy lubrication to the treated area. The unique formula contains PTFE which remains on surface leaving a protective coating between lubrication periods.

USE ON:

Cable, chains, hinges, gears, overhead doors, sprockets, winches, wire rope, slides, valves, pistons, rings, seals, bearings, sleeves, cams and bushings.

USED BY:

Machine shops, light and heavy manufacturing, HVAC, plumbing and other trades. Automotive and virtually all maintenance or repair operations.

DIRECTIONS:

SHAKE WELL BEFORE USING.
Remove protective cap and points spray tip opening in desired direction. Saturate area to be lubricated. Insert extension tube in tip opening for hard to reach areas.
