

DC50 is a unique blend of environmentally friendly chemistries consisting of wetting, foaming, and crusting agents to reduce dust production and eliminate surface erosion caused by wind and rain. Swirling dust kicked up by traffic on unpaved roads is a driving visibility and respiratory health hazard.

DC50 can be applied to roads and areas consisting of dirt, sand, gravel, or other substrates. It can also be applied to other loose solids, such as sawdust, fertilizer, coal, clays, or kitty litter. It is used in railroad yards, trucking depots, rock grinding plants, quarries, refineries, petrochemical and municipalities.

DIRECTIONS:

For best results, mix DC50 with water (see chart below) and apply liberally as needed. In large areas, solutions of DC50 can be applied by truck and other similar equipment. Smaller areas can be treated using a backpack or hand carried sprayer.

DC50 should be applied directly and evenly over the road's surface, to within one foot of either edge. The application should overlap the center of the road - the crown - which carries the most traffic.

DESIRED VOLUME	DC50	WATER
1 gallon	0.03gal. or 3.84 fl. oz.	0.970 gal. or 124 fl. oz.
500 gallons	15 gals. (500 x 0.03)	485 gals.

ROAD STABILIZER ALL-NATURAL INGREDIENTS

WARNING

**KEEP OUT OF REACH OF CHILDREN.
FOR INDUSTRIAL AND INSTITUTIONAL USE ONLY.**
SEE RIGHT PANEL FOR ADDITIONAL CAUTIONS.

NET CONTENTS: 55 GALLONS

WARNING:

Causes skin and eye irritation. Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand. Wear protective gloves/protective clothing/eye protection/face protection. Wash hands thoroughly after handling.

IF ON SKIN: Wash with plenty of soap and water. Take off immediately all contaminated clothing and wash it before reuse. If skin irritation occurs, get medical advice/attention.

IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

IF INHALED: No known significant effects or critical hazards.

IF INGESTED: Wash out mouth with water. Remove victim to fresh air and keep at rest position comfortable for breathing. Do not induce vomiting unless directed so by medical personnel.

READ SAFETY DATA SHEET BEFORE USE.
