

DESCRIPTION

AL-400 is a safer alternative, that replaces hydrofluoric, sulfuric, phosphoric and hydrochloric acids, which restores the "like new" appearance to surfaces. This concentrated solution quickly and effortlessly removes dirt, soot, oxidation and other soils from a wide variety of surfaces including aluminum, stainless steel and some fiberglass. This product is the formulation of choice when economy and speed are essential.

- Effective oxidation removal and aluminum brightener
- Will not frost glass
- Effective removal of calcium/limescale/silicate deposits

ENVIRONMENT / HEALTH & SAFETY

- Received the EPA's P2 Pollution Prevention Recognition Award
- Classified as a Non-Irritant to Skin

DIRECTIONS FOR USE

Wet down surface with a hose to cool.

- For **heavy oxidized or soiled surfaces** - use *straight solution*.
- For **milder oxidized surfaces** - *dilute solution 50/50 with water*.

Start at the bottom and work upward. Cover a 5 to 10-foot section at a time. Allow to sit 3 to 6 minutes, brush if heavy soiled, then rinse from the top down.

For best results solution must be rinsed while still wet. If drying occurs reapply solution before rinsing. For heavily oxidized surfaces a second application may be necessary.
