

USED FOR: DRILLS • TAPS • CUTTING TOOLS

HYDRO CUT is a synthetic lubricant effective in punching, drilling, tapping, sawing, machining, cutting, boring, threading and grinding operations on all steels, titanium, monel and aluminum.

HYDRO CUT INCREASES PRODUCTION AS WELL AS TOOL LIFE

RESULTS IN COOLER WORKPIECE WITH LESS TOOL BURNING

- Fluid is transparent providing better visibility of work area.
- Can be removed with cold water or degreaser solvents.
- Cools cutting tools for longer life.
- Lubricates to penetrate surface and provide a continuous non-staining film and protects from corrosion.
- Non-chlorinated

COOLS THESE SURFACES

- Aluminum and Aluminum Alloys
- Carbon Steels
- Stainless Steels
- Chrome-Moly and Vanadium Steels
- Nitralloy Steel
- Iconel
- Monel
- Phosphor
- Bronze
- Titanium
- Hastelloy Alloys
- Beryllium
- Copper and other related alloys

DIRECTIONS

Product can be sprayed on, brushed on Apply a liberal amount directly to work area, reapply as necessary to keep area cool and well lubricated.

HYDRO CUT™

CUTTING & TAPPING FLUID

COOLANT LUBRICANT FOR DRILLS • TAPS • CUTTING TOOLS

NET CONTENTS: 1 U.S. QUART (32 FL. OZ)

DANGER: FLAMMABLE. KEEP OUT OF REACH OF CHILDREN. HARMFUL OR FATAL IF SWALLOWED. SEE OTHER CAUTIONS ON SIDE PANEL.

DANGER: flammable liquid and vapor. Causes eye irritation. May cause drowsiness or dizziness. May be harmful if swallowed and enters airways. Keep away from heat, hot surface, sparks, open flames and other ignition sources. No smoking. Do not spray on an open flame or other ignition source. Keep container tightly closed. Do not pierce or burn, even after use. Avoid breathing dust/fume/gas/mist/ vapors/spray. Wash hands thoroughly after handling. Use only outdoors or in well-ventilated area. Wear protective gloves/protective clothing/eye protection /face protection. Store in a well-ventilated place. Keep cool. Store locked up. Dispose of contents/container in accordance with local/regional/national/international regulations.

FIRST AID
