

Gel-based paint remover quickly removes paint, lacquer, shellac, enamel, varnish, labels, carbon deposits, silicone, simulated wood paneling and similar materials. Product will not run. The methylene chloride free formula is a safer alternative to paint removal.

FOR USE BY: Auto dealers, paint shops, maintenance departments, engine rebuilders, factories, furniture refinishers, painters, sign builders, schools, motels, hotels, hospitals and offices. FOR USE ON: Metal parts, plaster, concrete, tile, glass, ceramic, engine parts, valve seals, paint guns, paper, wood, stone, masonry and cylinders.

DIRECTIONS FOR USE:

Preclean accumulations of dirt and grease with a heavy duty detergent. Allow to dry. Apply undiluted compound in a full heavy coat. Allow to stand until paint is thoroughly wrinkled or bubbled. Flush with water or solvent. Use a scraper or wire brush in cracks, crevices or on stubborn accumulation. On painted floors, a squeegee may be used to move the stripper from one area to another when finished, and compound may be reused. Add new product periodically.
